

# Early Adopter

## Triggers

Concerned about the lack of digital education, poor AI literacy, and the need to verify all AI-generated content, which can make it hard to trust the tools fully.

## Notes

Language teacher who uses AI tools to enrich learning by creating original content and interactive classroom activities.

## Goals

Goal is to use AI as a supportive tool to create engaging, personalized learning materials while maintaining the central role of the teacher in the educational process.

## I need to know

A better understanding of the available tools, their ethical use, and practical training on how to implement them effectively in the classroom.

## I need to feel

To feel well-informed, adequately supported, and confident that AI tools will enhance my role as an educator.

## Intrinsic Motivations to learn

To improve my teaching methods, stay current with technological changes, and offer my students more engaging and meaningful learning experiences.

## Extrinsic Motivations to learn

Motivated by the need to everchanging educational standards and to ensure that my teaching remains relevant in a technology-driven world.
